JITENDRA RATHOD

DATA SCIENTIST & FULL STACK WEB DEVELOPER

PROFILE

Recent graduate with a degree in Engineering and 1+ year of experience in data science. Skilled in data analysis, Artificial Intelligence, Full stack web development and programming.

Recognized consistently for performance excellence and contributions to success. Enthusiastic graduate eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Clear understanding of teamwork and problem solving skills. Motivated to learn, grow and excel in IT industry.

WORK EXPERIENCE

DataMites (SkillFloor Solutions Pvt Ltd)
Work From Office - Pune, Maharashtra, IN
Data Scientist
Mar 23 – Present

- Handling external & internal client projects related to Data Science & AI.
- Strong command of decision trees, random forest, regression models, classification models, forecasting, etc.
- Responsible as to guide and mentor working and non - working professionals to master in Data Science & AI.
- Helping students in their projects and clarifying doubts related to curriculum.
- Designing and developing training programs.
- Assessing learning projects and tests.
- Keeping up-to-date with industry trends.
- Providing consultation and support.
- Help team to restructure syllabus/topics as per requirement.

TECH I S India Pvt. Ltd. (An US based MNC)
Work From Office - Bangalore, Karnataka, IN
Trainee in Data Science & Full Stack Development
Feb 22 – Nov 22

- Worked on several projects involving data analysis and machine learning.
- Well versed with data gathering, data modelling, predictive modelling, anomaly detection, clustering, etc.
- Utilized Python for data cleaning, exploration, and modeling.
- Collaborated with cross-functional teams to deliver insights and recommendations.
- Strong command of decision trees, random forest, regression models, classification models, forecasting, etc.
- Have fair hands on for image, video and text analysis.

- Experienced in using AI frameworks TensorFlow, Keras, PyTorch, Python ML libs (Pandas, Matplotlib, Scipy, Sklearn, Numpy, etc.)
- Assisted US professionals for projects in both AI and Web apps.
- Worked on developing and maintaining web applications using Python and JavaScript.
- Built and consumed RESTful APIs using Django and Flask frameworks.
- Worked with PostgreSQL and MongoDB databases.
- Implemented front-end features using React.
- Worked with Git version control and followed Agile development methodologies.
- Collaborated with cross-functional teams to deliver high-quality products on time.

BitVivid AI Solutions Pvt. Ltd.
Work From Home - Indore, MP, IN
Intern AI Engineer
3 Months Intern Program

- Worked in dynamic team to fetch data from clients site using Logstash and storing it into ElasticSearch an AWS cloud-based search engine and then visualizing it on Kibana Dashboard Utilized Python for data cleaning, exploration, and modeling.

FlipRobo Technologies Pvt Ltd
Work From Home – Bangalore, Karnataka, IN
Data Science Intern
6 Months Intern Program offered by respective employer

- Worked on development of AI based live face recognition application for surveillance camera.
- Experience in using OpenCV, face recognition, CNN, pretrained image recognition models.,

EDUCATION

**ADITYA COLLEGE OF MBA, Beed, Maharashtra, IN**
Master in Business Administration.
